THE CHINESE TREATY.

If it should turn out to be true, as is now reported, that the Chinese Government has rejected the Cleveland-Bayard treaty, the country will have nothing to regret. All the vitality there was in the treaty dwelt in the amendments the United States Senate forced upon the administration, and in these amendments the Imperial Government is said to find the chief objections it presents to the treaty. This is a hopeful sign, it clears the atmosphere very much and lets us look upon the real policy of the Chinese Government. It indicates that it is not so disposed to obstruct the enlargement of its subjects as we have been led to believe. But even with the Senate amendments to the Bayard-Cleveland treaty, so long as there remained the wife, or family, and the property clauses, the compact was of little value. It would be impossible to find a Chinese man who would not take the necessary oath that he would leave behind him in California \$1,000 of solvent debts due him, or property that value, or a wife or child for whose support it was necessary he should provide.

Recent developments in San Francisco have shown again that the Chinese community in the defeat of the restriction laws with the utmost reluctance, and as if devoid of any conscience in the matter. The strange thing is that none of them are arrested and punished for their perjury. The officials know that the majority of those demanding admission as "prior residents" support their claims by the most outrageous false swearing, the proofs of which are undeniable, and if nine-tenths weaker, would still be sufficient to convict of the crime.

If China has rejected the treaty it will give the new Republican Administration, when it comes in next March, opportunity to try its hand in adjusting the Chinese question to the needs of the country. That it will be able to do so is unquestionable; the party never yet failed to take the right side, nor will it fail in this case. It may be that the Democratic will be sufficiently frightened by the near approach of a political judgment, to consent to the Mitchell bill, providing for total exclusion of all Chinese except those who come accredited by the Imperial Government as its agents and messengers. It will be wisdom on its part and a political feather in its cap if the Democratic party takes up that bill, adopts it, and permits it to pass and to receive the approving signature of the President.

GENERAL BEN BUTLER'S declaration in favor of the Republican platform leads the astonished Democrats to pronounce it "a bit of eccentricity." Perhaps; but if shrewd and well-informed Butler had spoken in favor of Mr. Cleveland and concealed free trade, these same Democrats would be shouting about the wisdom of old Ben Butler. It is wonderful how colors we see through spectacles depend upon the tint of the glasses.

It is gratifying to find with a degree of particularity that gives character to its alleged integrity, the news that Kaiser William has yielded to wisdom and will govern Germany hereafter according to plans and schemes of progress laid out by his father, whose purity, nobleness of purpose, and liberalism were distinguishing traits of character. William will prove all the better for this yielding.

THE KERRY-CLARKS case who are running about the country declaring that General Harrison is pro-Chinese have not one word to say to this declaration by that distinguished American: "We should protect our people against competition with the products of underpaid labor abroad, as well as against the coming to our shores of pauper laborers under contract, and the Chinese."

The Stockton's Have a Regular Picnic With the Greenhorns & Morans.

[Copyright, 1888, by the California Associated Press.] STOCKTON, September 21.—The Greenhorns & Morans were demoralized to-day, going to pieces in the first inning, the Stockton's winning with a score of 11 to 2. Meade's umpiring was the rankest yet witnessed on the Stockton diamond, but beyond working a double on both pitchers his decisions were about even-er. The picnic commenced in the first inning, the Greenhorns & Morans being demoralized by the Stockton's. The picnic was a success, and they played a very listless game. Shea's work at short and Hardie's at first being decidedly poor. Whitehead's home run raised the enthusiasm of the crowd, and his work at third was great. Shea's playing at first was superb.

The Stockton's played their first errorless game of the season.

Anderson was hit hard in the first two innings, but Shea was placed in the box.

A HUSBAND'S CRIME.

Attempted Wife-Murder and Suicide at San Diego.

SAN DIEGO, September 21.—Devis Greene, alias Marks, now lies cold in death at the morgue, a victim of his own hand, and the woman whom this man loved and loved to love, protect and cherish away off in a quiet room, a quarter of a century ago, lies at home upon a bed of suffering, wounded seriously, if not fatally, by the same hand. Last night Mrs. Greene was standing at the gate, talking to a young man named Mohan, employed by her lawyer, who was engaged to secure her divorce. Greene had been absent for some time, but appeared unexpectedly and demanded to see his children. He was told that he could not see them at that hour, but he might do so in the morning. At this he became angry, drew a revolver and fired one shot at the woman, which took effect in the left hip. Then he fired at Mohan, but missed. Then he turned to his wife and entered the right ear, crashed through the skull and made its appearance just under the skin on the left side of the forehead. He died instantly.

GRAND PACING.

Gold Leaf Breaks the Three-Year-Old Record, and Beaten by Adams.

OAKLAND, September 21.—Yesterday, the last day of the Gold Leaf Association meeting, had two sensational races for turfmen. Valentin's filly, Gold Leaf, paced a mile in 2:18, but was beaten by her half brother Adams, who won in 2:15. The time made by Gold Leaf in the first heat breaks the record for that age. The great success of Gold Leaf in the first heat was due to the fact that Adams was not in the race. The time made by Gold Leaf in the first heat breaks the record for that age. PALMATA, September 21.—A disease fatal to cattle has broken out on the dairy ranch of W. A. Lewis, near this city. It has lost several fat cows this week from it. They live but a few hours after taking it.

## HOME AFFAIRS.

## A MILLION AND A HALF LOSS BY FIRE IN BALTIMORE.

## Several Firemen Buried Under a Falling Building—A Plend's Crime—Yellow Fever.

[SPECIAL DISPATCHES TO THE RECORD-UNION.]

## AWFUL CALAMITY.

## Firemen Buried Under a Burning Building, and Roasted Alive.

BALTIMORE, September 21.—Early this morning a fire broke out in the toy warehouse of Pryor, Helgeson &amp; Co., 17 South Street, and before the firemen could get to work an explosion of fireworks wrecked the building, causing the flames to spread to the drug house of J. H. Winkelman &amp; Co. on the north and the hat house of M. S. Levy &amp; Co. on the south. Scarcely had the fire been under control when the building of J. H. Winkelman &amp; Co. fell, crushing the firemen who were working on the roof. The entire fire department had by this time reached the scene, and as the firemen's attention was concentrated on the building under which their comrades were buried, the flames had a chance to spread with frightful rapidity.

In a short time the entire block, running from Lombard to Pratt street, was a seething mass of flames.

At the drug house the firemen worked bravely. Hoses were cut through the pavement, and every effort was made to reach the imprisoned men, but they were buried under a great mass of brick and iron, and the flames were roaring around the spot.

AWFUL DEATHS FROM THE FIRE.

Which seemed to make the working firemen put forth more energy, and they were not more than an hour's work it became evident that some of the men were alive and that they were being roasted to death. John Kelly, of Truck No. 2, managed to crawl out from the rubbish, and of the men who entered the building he was the only one to escape with his life. He was cut and bruised, but his injuries are not serious.

THE VICTIMS.

The names of the men known to have been buried in the ruins are: George Bowers, Thomas Wagner, John A. Cowles and Perry Ryan of No. 2 Hook and Ladder Company, and Harry Walker, George Kerian and Hiram McFarlane of No. 7 Engine Company.

It is certain that these men have lost their lives, and it is probable that others were with them when the crash came.

THE LOSERS.

The men who were burned out completely are: Wills, Bruster &amp; Co., wholesale shoe dealers; J. H. Winkelman &amp; Co., drug and haberdashery; M. S. Levy &amp; Co., hats; H. S. King &amp; Sons, hardware; Dobbs, Mudge &amp; Co., paper; and H. H. Henschel, Henschel &amp; Co., paints and glass.

A HEAVY LOSS.

The row of buildings was one of the finest in the city, none of the houses being less than four or five stories high, and all of them having been recently erected.

Among the buildings partially burned was the Maternity, and its inmates were removed only with great difficulty. The total loss will probably reach \$1,500,000, and it is probable that the insurance companies will be called upon to pay out a large sum of money.

THE INTENSE HEAT.

Several times during the firemen from the building where the bodies of the unfortunate men were lying under tons of brick and iron, but they persisted in the search, and shortly after the first body—that of Wagner—was brought to light. Near the spot was the body of Harry Walker, standing erect, as if packed in straw. Near him was the body of George Bowers, but no other bodies were found until nearly 6 o'clock, when that of George Kerian was uncovered. The bodies were horribly disfigured, the flesh being burned off in many places. The search is being pushed to night with the aid of electric lights.

In the hardware store of Table Bros. and Danneberg there were a large quantity of cartridges, and as they exploded several men were slightly injured by flying bullets.

THREE STILL MISSING.

At midnight the firemen are still at work searching for bodies. It is known that at least three are still in the ruins, but they may be recovered to-night, as they are buried beneath the debris.

THE FLORIDA INFLUENZA.

A Rain-storm Visits Jacksonville and Gives Some Hope.

JACKSONVILLE (Fla.), September 21.—The yellow fever continues to spread in the city. There were twenty-two new cases, and two deaths to-day. A thunder and rain-storm this afternoon purified the infected atmosphere, cleared the streets and drenched the sewers, and it is believed did much good.

Citizens who were permitted by the Health Board to take a trip to Atlanta for refuge and put on for the first time to-day. Four party left for the city, and the party were unable to avail themselves of the opportunity until they departed from the week.

HELLISH DEED.

A Young Lad Deliberately Fed into a Thrashing Machine.

A young lad, named John, of the neighborhood of Guide Rock, a small town over the Nebraska line, was killed while feeding a thrashing machine on the farm of John Weeks, who accidentally cut on the hand by the band-cutter, a boy. He grasped the youth and deliberately fed him into the machine first. The boy's screams attracted the attention of the other hands, but before they could interfere the boy had half disappeared. The enraged man seized Baker and hanged him from the straw-carrier.

SAD AFFAIR.

An Insane Mother Drowns Herself and Her Two Children.

CHICAGO, September 21.—A most distressing tragedy was discovered last night at Delhi, a few miles from Cincinnati. It was discovered by Mr. Heinle of Delhi that his wife and two children, who had been missing since Tuesday last, had been drowned. The sad case is intensified because it is believed that the mother was insane, had dragged the children into the river with her. The children were a girl and boy, nine and ten years old. The three bodies were recovered yesterday and identified.

A BLOODY BATTLE.

Seventeen Men-Thieves Killed and Nine Wounded.

KANSAS CITY, September 24.—A special committee of the National Encampment of the Grand Army, which opens in this city on September 11th, announces everything in readiness for the accommodation of the masses. All Grand Army Posts, ex-soldiers and relief organizations which have applied for quarters have been assigned, and the committee still has designated quarters for ten thousand more people.

An Eviction to General Hovey.

EVANSTON (Ind.), September 24.—General Hovey was given a grand ovation last night in honor of his return home and his nomination for Governor. A torchlight procession took place, in which 5,000 persons participated. Addresses were made by General Hovey, ex-Governor Foster and others.
